The first workshop on climate change was held

NGO Green Home in cooperation with partners Montenegro Green Building Council from Podgorica and Climate Action Network Europe (CAN Europe) from Brussels organized a workshop: "What are Climate Change and How to Catch With the EU". The workshop was held in the period from May 23rd to 25th in Ulcinj, Hotel Palace of Venice, Old town Ulcinj.

The aim of this workshop was to build capacities of civil society organizations active in the field of environment and sustainable development to be an active player in approximation process and to influence policies related to climate change. During the workshop, CSOs were introduced to the topic of climate change and relevant policies in this field as well as current negotiations process in this area and related obligations.

The workshop was organized in the frame of the Project "Together for Better Climate in Montenegro", supported by the Delegation of the European Union to Montenegro through the Civil Society Facility IPA 2016 Program, implemented by Green Home in cooperation with the Council for Environmental Construction from Podgorica and the Climate Action Network Europe.
