Forum in open about circular economy â€™ 21st of September 2018

NGO Green Home will have organized **Forum in open â€™ Info day** about circular economy. Forum will have been organized in the shopping mall Delta city on the **21st of September 2018**. On 20th of September is anniversary of the ecological state of Montenegro.

On this occasion, citizens will have the opportunity to inform themselves about the concept of circular economy and the importance of recycling as one of the mechanisms for achieving the goals of the circular economy.

One of the most frequently forgotten waste, which is a major environmental problem, is the wardrobe, that is, waste from the textile industry as well as plastics.

All citizens who bring old clothes, plastic and paper to this day will be rewarded with the interesting gifts we have prepared. Our goal is to encourage citizens to recycle not only packaging waste but also waste from the textile industry.

We will donate the collected wardrobe to the Red Cross and bring the plastic and paper to recycling.

The activity is realized within the projects: ENV.NET factoring the environmental portfolio for Western Balkans and Turkey in the EU Policy Agenda which is financed by the European Union as well as the project: Active youth for a better environment, which is financially supported by the Ministry of Sport.
