# Cross-border Dialogue - Youth Collaboration for Transboundary Dinaric Alps

---

Green Home started implementation of project "Cross-border Dialogue - Youth Collaboration for Transboundary Dinaric Alps" in collaboration with partners from Albania -EcoAlbania and Kosovo- Era Group, in the frame of the project Youth Collaboration for Dinaric Alps supported by Regional Youth Collaboration Office - RYCO.

This project aims at creating cooperation bridges among the youngsters of Albania, Kosovo and Montenegro. EcoAlbania in partnership with ERA NGO from Kosovo and Green Home from Montenegro, in order to reach this goal, will develop a range of activities with youngsters between 18 and 24 years old. 15 participants will attend some trainings and summer schools at the National Park "Prokletije". They will learn more about the regional nature, culture and economy and nature conservation challenges.

The specific objective is to grow environmental awareness on the protection and promotion of the cross-border area of Prokletije.

We are trying to change how the next generation, youth, interpret challenges in the Prokletije. For this reason, this project will bring youth together through a virtual platform and in-person to discuss such challenges. By meeting virtually and in-person, youth will be exposed to two effective options for collaboration with which they can use to work on the challenges after the project concludes. This project will frame all conservation challenges by shared environmental, cultural, and economic values and opportunities.

Project will last until July 2020.
