About us

Foundation year

NGO Green Home was founded by graduated students of biology science, 14. 02. 2000, as a non-governmental, non-profit and non-political organization. The organization appeared from the need for participation of great number of citizens in protection and conservation of environment, as well as taking an active role in civil society development through respect for biodiversity and efforts on sustainable development.

(IUCN)

NGO Green Home is from 22.03.2000, registered under the number 635 in registry of non-government
since
organizations with the Ministry of Justice of the Republic of Montenegro ("021747/2000").
2005

Main aim

The aim of the organization is environmental preservation and protection, biodiversity conservation and implementation of the sustainable development principles.

Mission

We are dedicated to environmental protection and environmental improvements that foster a sustainable future and lead to social and economical improvements in the communities at national level. In order to do this, we are committed to work with different range of stakeholders to foster partnerships and work together to provide sustainable future and have strong recognition world wide as Ecological State of Montenegro.

Work

Our work is divided in two programmes

â€¢ Programme for Environmental Protection

â€¢ Programme for Energy

Programme for Environmental Protection

Programme for the environmental protection aims to promote, educate and support local and regional initiatives in nature protection and conservation. Through the programme we want to help in solving problems in the area of environmental protection and conservation as well as sustainable use of natural resources.

Programme for Energy

Programme for energy aims to promote, educate and support local and regional initiatives on energy

efficiency and use of alternative energy sources. Through the programme for energy we want to emphasize the importance of implementing energy efficiency measures and the positive effects that this method can achieve both in terms of environmental protection and improvement of living comfort.

Fields of work

Fields of work: biodiversity, freshwater and wetlands, agriculture, sustainable use of resources, industry, energy and green technologies, recycling, pollution and waste management, ecotourism and sustainable development at local, national and mediterranean level.

Cooperation

We consider cooperation as necessary tool for development processes. Therefore, we maintain partnerships with different stakeholders, being aware of the importance of every single pillar: local communities, authorities, other organizations and individuals at national and international level.

Membership at international level

• The network for creation and implementation of Mediterranean Strategy of Sustainable Development (MS SD)

• SEEENN (network of ecological NGOs in South-Eastern Europe - regional level)

• International office for waters, Paris, France

• Coalition for river Tara protection (environmental network of NGOs from Montenegro, Serbia and Bosnia and Herzegovina)

• Conserving the Biological Diversity of South-western Balkans: Trans-boundary Nature Conservation in the landscape of the Durmitor Massif - Tara River - Prokletije Mountains (Montenegro and Albania) - WWF Mediterranean Programme Office

• Balkan Peace Park Project – Network on creating a trans-national, cross-border park in the adjoining mountains in areas of Kosovo, Montenegro and Albania

Membership at national level

• Agency for Environmental Protection

• Member of Board for energy efficiency and environmental protection, Chamber of economy of Montenegro

• Ministry of Economy, official partner in "Energy Efficiency year"

• University of Montenegro, Faculty of Sciences

• Institute for Nature Protection and Ministry for environmental protection (Natura 2000 project)

• Forum of ecological NGOs for sustainable development

Through our projects we cooperated with

• Municipalities of Podgorica, Rozaje, Plav, Bijelo Polje, Niksic, Andrijevica, Bar, Danilovgrad, Kolasin, Mojkovac

• University of Montenegro, Department for Biology sciences

• Primary schools, kindergartens

• Government of Montenegro

• Ministry of Tourism of Montenegro

• Bureau for development in Montenegro Government

• Institutions for education children with special needs

• International organizations
