Solar Info Center

Solar Info Center was established in the frame of the project "Regional cooperation on energy efficiency and renewable energy". Establishment of the Solar Info Center was supported by Foundation Open Society Institute â€™ Office in Montenegro (FOSI ROM).

Solar Info Center provides information about possible usage of solar energy and news in this area of interest. It was created for citizens as well as for nongovernmental organization, local communities and all interested parties.

Solar Info Center was established in May 2008 in Podgorica.
