Green center

"Green Center" is informal alliance which gather all ecological NGO prepared to actively participate in improvement and consistent implementation of legislative concerning environment protection.

Main objectives of "Green Center" are: introducing the content of legal documents concerning environment protection (national and EU) to NGOs, local communities and other interested parties, organizing joint NGO activities, work on the campaign of common interest and final development and strengthening of ecological NGO alliance, aiming better communication in the field of designing »ecological policy «.

"Green Center" is established because of the needs for higher participation of NGOs and public services in the processes of adopting decisions, laws and other legal documents, and consistent implementation of legislation in the practice and the need for pointing out on changes in the environment caused by negligence and disrespecting of existing laws.

Alliance "GreenCenter" was founded on 19th January, 2006 in Podgorica.
